

# RealNumber® DNO

The rate of robotexts on consumers' mobile phones has risen exponentially in recent years. According to the FCC, text message scams have become so prevalent that complaints about robotexts have grown by 500% since 2015!

As a result of increasing robotexts, consumers have become skeptical about trusting the content of the text messages they receive. The concern is still on the rise and is costing consumers and businesses significant losses due to fraud. **Here are some recent statistics you should know:**

**378,572,959**

illegal robotexts every day which is >1 robotext for every US Resident

**+18%**

year over year change since 2022

**4,381**

robotexts per second

**262,898**

robotexts per minute

**\$13B** in losses

due to robotext scams during the first half of 2023

**78M** robotexts

received by Americans in the first half of 2023
