

Providing Text to Toll-Free Services:

It's as easy as 1, 2, 3!

What we will cover today

1. Why Choose Texting to Toll-Free for Business?
2. Business Customers WANT to Text!
3. Three Ways to Text Enable Your Toll-Free Numbers

Why Choose Texting to Toll-Free for Business?

The background of the slide features a series of thin, light blue wavy lines that sweep across the lower half of the image, creating a sense of motion and modern design.

Why Choose Texting to Toll-Free for Business?

Customers want to have text to Toll-Free as an option to communicate with businesses

Resp Orgs and Messaging Providers gain revenue and improved efficiencies with a multi-modal cohesive solution for their customers

Texting to Toll-Free Market Segments

- Text enablement to Toll-Free is continuing to grow
- Industry segments benefiting and are leveraging text to Toll-Free include:

Call Centers

Call Tracking Software
Companies

Security System Companies

Customer Helpdesk Support

Customer Notifications

School Notifications

Health Sector

Marketing Outreach

Customer Contact

Small to medium businesses and Enterprises

Notices, appointment reminders, payment
reminders, marketing messages, instant coupons

Business Customers WANT to Text!

Business Customers WANT to Text!

75% of customers think
texting could help prevent
miscommunications

85% of people said they prefer
to text with a live customer
support agent instead of
calling or emailing

76% of people say they
would rather text than
wait on hold

90% of text messages are
opened within three
minutes of receipt

Business Customers WANT to Text!

It's **customer-centric**

Reach customers how THEY want to be reached

It supports an

omnichannel

marketing strategy with the text to Toll-Free
multi-modal advantage

Contact Center agents

increase efficiencies

by handling more

Toll-Free texting is

cheaper than short codes

plus enables a two-way conversation with customers

Messaging is a New Revenue Stream for Resp Orgs

Offer texting in addition to your
Toll-Free voice service as a
value-add

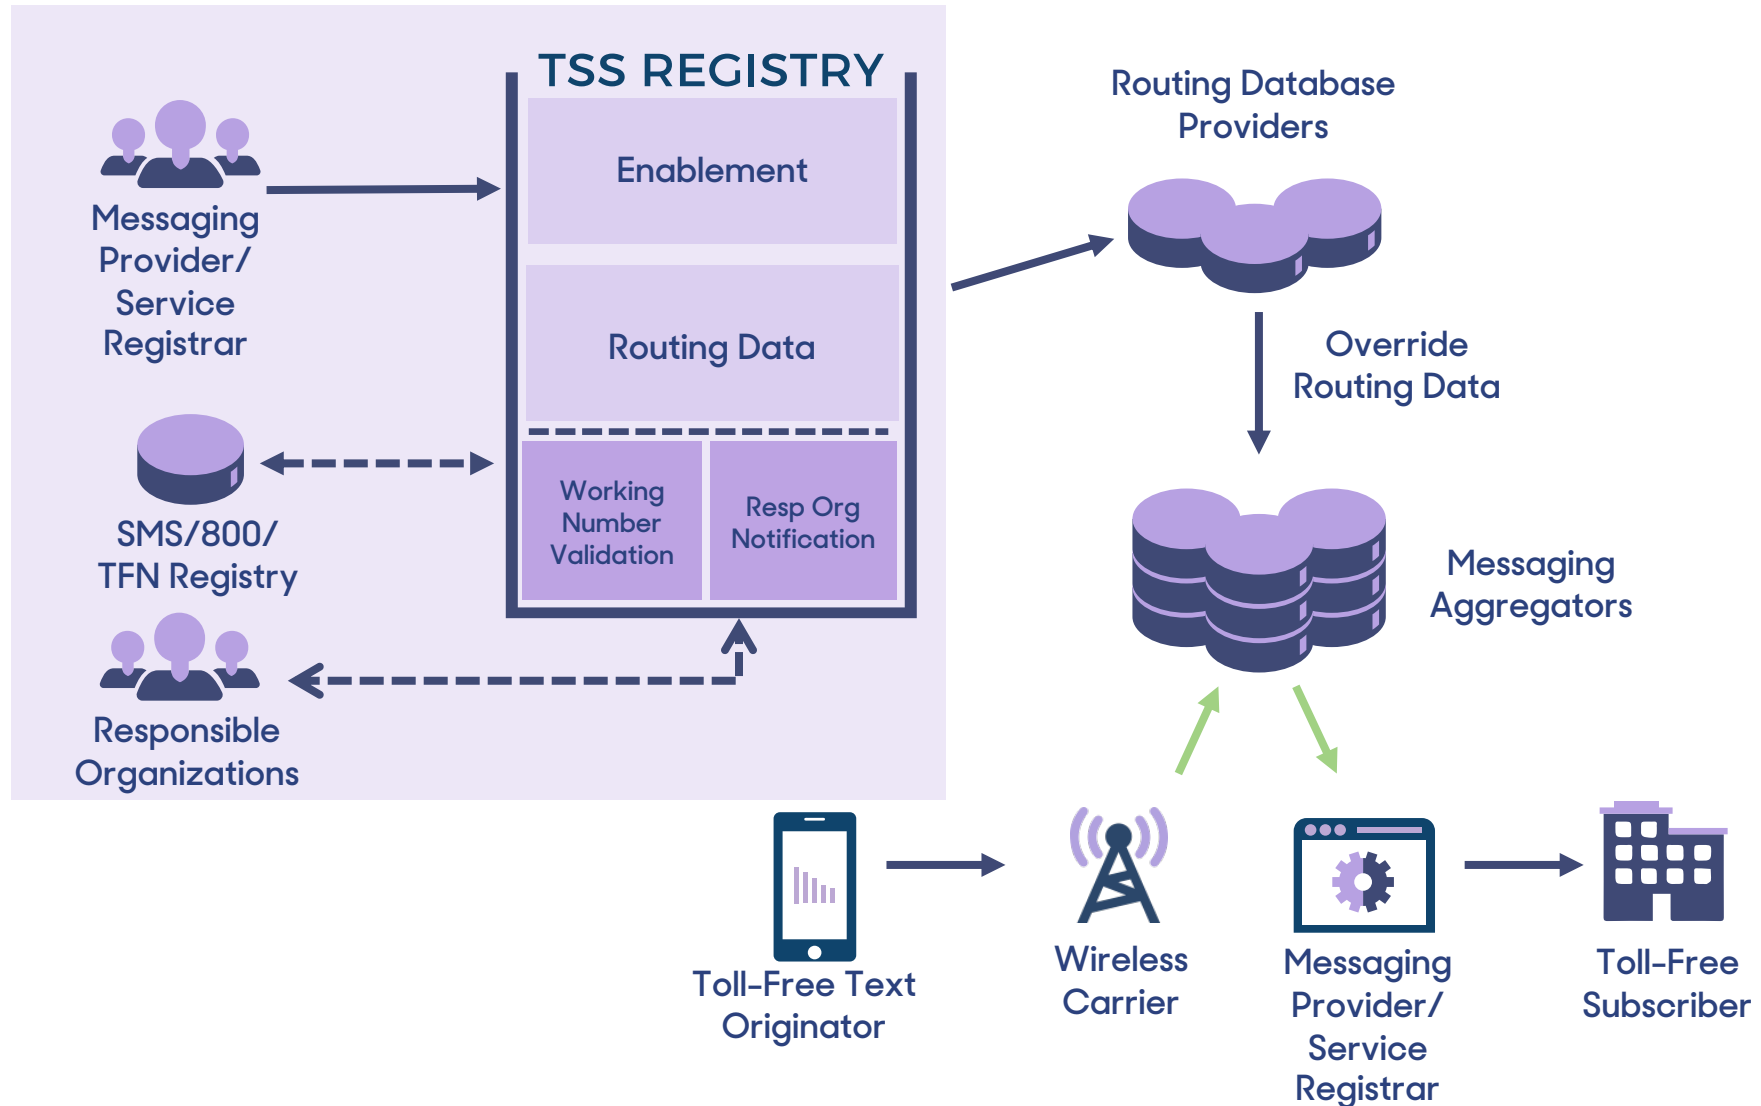

Resp Orgs without texting risk losing
customers that want the option to
text-enable

TSS Registry and Texting Ecosystem

The background of the slide is a solid dark blue. In the lower half, there are several thin, light blue wavy lines that sweep across the frame from left to right, creating a sense of motion and depth.

TSS Registry and Texting Ecosystem

One Solution: Three Options to Meet your Business Needs

Partnering

White Labeling

Build In-House

1. Partner with a Messaging Provider

1. Partner with a Messaging Provider

Simplify the complex messaging ecosystem by **partnering** with an established Certified Messaging Provider

Ideal for:

- Businesses of all sizes that want quick implementation

Benefits:

- Turn-key solution
- No overhead costs
- Reliable platform and servicing from an established messaging provider

Who can I partner with?

Somos Certified Messaging Providers/Service Registrars

Considerations

Partnering

Advantages

- Turn-key solution with quick implementation
- Third-party hosting and support
- Most providers offer consistent payment plans
 - no financial surprises

Considerations

- Lack of full ownership over the text to Toll-Free solution

2. White-Label with your Branding

2. White Label with your Branding

Maintain branding by partnering with an established Certified Messaging Provider to build a white labeled solution

Ideal for:

- Businesses of all sizes quick implementation AND their branding

Benefits:

- End to end solution with your branding throughout
- Seamless integration process
- Greater brand awareness

Who can I partner to white-label with?

Somos Certified Service Registrars

Considerations

Partnering

White Labeling

Advantages

- Turn-key solution with quick implementation
- Third-party hosting and support
- Most providers offer consistent payment plans – no financial surprises

- Brand awareness with your branding
- Turn-key solution with quick implementation
- Third-party hosting and support

Considerations

- Lack of full ownership over the text to Toll-Free solution

- Additional costs incurred for white-labeling
- Lack of full ownership over the text to Toll-Free solution

3. Build Solution In-House

3. Build Solution In-House

Build a proprietary text messaging application **in-house**

Ideal for:

- Businesses that want complete control and ownership over the platform

Benefits:

- Customized to your exact business specifications
- Lower long-term maintenance/operating costs
- Potential to become a Certified Service Registrar and offer text-enabled solutions to other Resp Orgs
 - Gain revenue while expanding service offerings
